Location : 149/4/4, Dokkhin Pinerbagh, Taltola, Agargaon, Dhaka-1207

Summary

I aim to begin my career as a software developer where I can use my skills in web and mobile app development to solve real-life problems and continue learning and growing in the field.

Academic Qualification

- ◆ Bsc in Mathematics from Lakshmipur Govt. College under National University. Passing year 2020
- ◆ HSC(Science) from BCIC College under Dhaka Board-2014
- ◆ SSC(Science) from Mandari ML. High School under Comilla Borad-2012

Professional Training

Diploma in Web and Mobile App Development using Spring Boot, Android & Flutter at IsDB BISEW- Round 63.

Professional Skills

- **Frontend:** Angular 17, Bootstrap 5, HTML, CSS, TypeScript
- **Backend:** Java, Spring Boot, Spring Security, REST API, JWT, Maven
- **Database:** Oracle SQL, JPA/Hibernate, SQLite
- **Mobile App Development:** Flutter, Dart, Android (basics)

Personal Details

- Father : Abdul Wadud(Late)
- Mother : Nur Nahar Begum
- Permanent Address : Haji Chan Miya Bari, West Battali, Ward No-08, Duttapara, Chandraganj, Lakshmipur
- NID No : 4652720642

Projects

- **Pharmaceutical Management System web App using Angular(Frontend).**

Description: Developed a role-based pharmacy management system with modules for medicine inventory, order processing, stock tracking, admin panel, and sales reports.

Technology: Angular

Github: https://github.com/tajul3986/Pharmaceutical_frontend

- **Pharmaceutical Management System Mobile App using Flutter(Frontend).**

Description: This project is a full-stack solution designed to streamline medicine management, sales, and customer interaction in the pharmaceutical sector.

Technology: Dart(Flutter)

Github: https://github.com/tajul3986/Pharmaceutical_Flutter

- **Pharmaceutical Management System Web Application Using Spring Boot(Backend-All)**

Description: The backend is developed using Spring Boot, following a layered architecture with controller and DAO layers. It exposes secure RESTful APIs to handle user authentication, product management, category-subcategory mapping, order processing, and seller modules. The application interacts with a MySQL database using Spring Data JPA for efficient and scalable data handling.

Technology: Dart(Flutter)

Github: https://github.com/tajul3986/Pharmaceutical_Backend
